

Coddiwomple DESIGNS

One of a Kind & Made to Order
Steampunk Lamps

*W*e all need a little light in our lives, right? Add some Steampunk illumination to yours with a one-of-a-kind lamp from **Coddiwomple Designs**.

Codd-i-wom-ple (kod ' ee ' wom ' pl) *verb*. A Victorian word meaning to travel purposely toward an unknown destination.

Our journey involves scouring estate and garage sales, antique stores, and thrift shops for funky bits and pieces so we can create unique lamps that speak to the Steampunk and Victoriana esthetic you love.

We never know what our final lamps will look like until we conduct a preliminary perusal of our parts inventory. We grab a few promising fragments that speak to us on that particular day and just use old-fashioned trial and error to see what works. Sometimes it's a two or three day process of switching out a coil here, a gear there, until

we're happy with the result. Then comes the challenge of making everything we *thought* would work, actually function. By the time we finish our lamps, we get kind of attached to them, but we'd love to share our illuminating friends with you.

Give us a call to see our latest one of a kind creations. Or, if you have some of your own Steampunky parts you'd like made into a lamp, we'd be happy to see if we can make it happen.
